

CREATIVE RESPONSE PROJECT

Aviation History and Literature

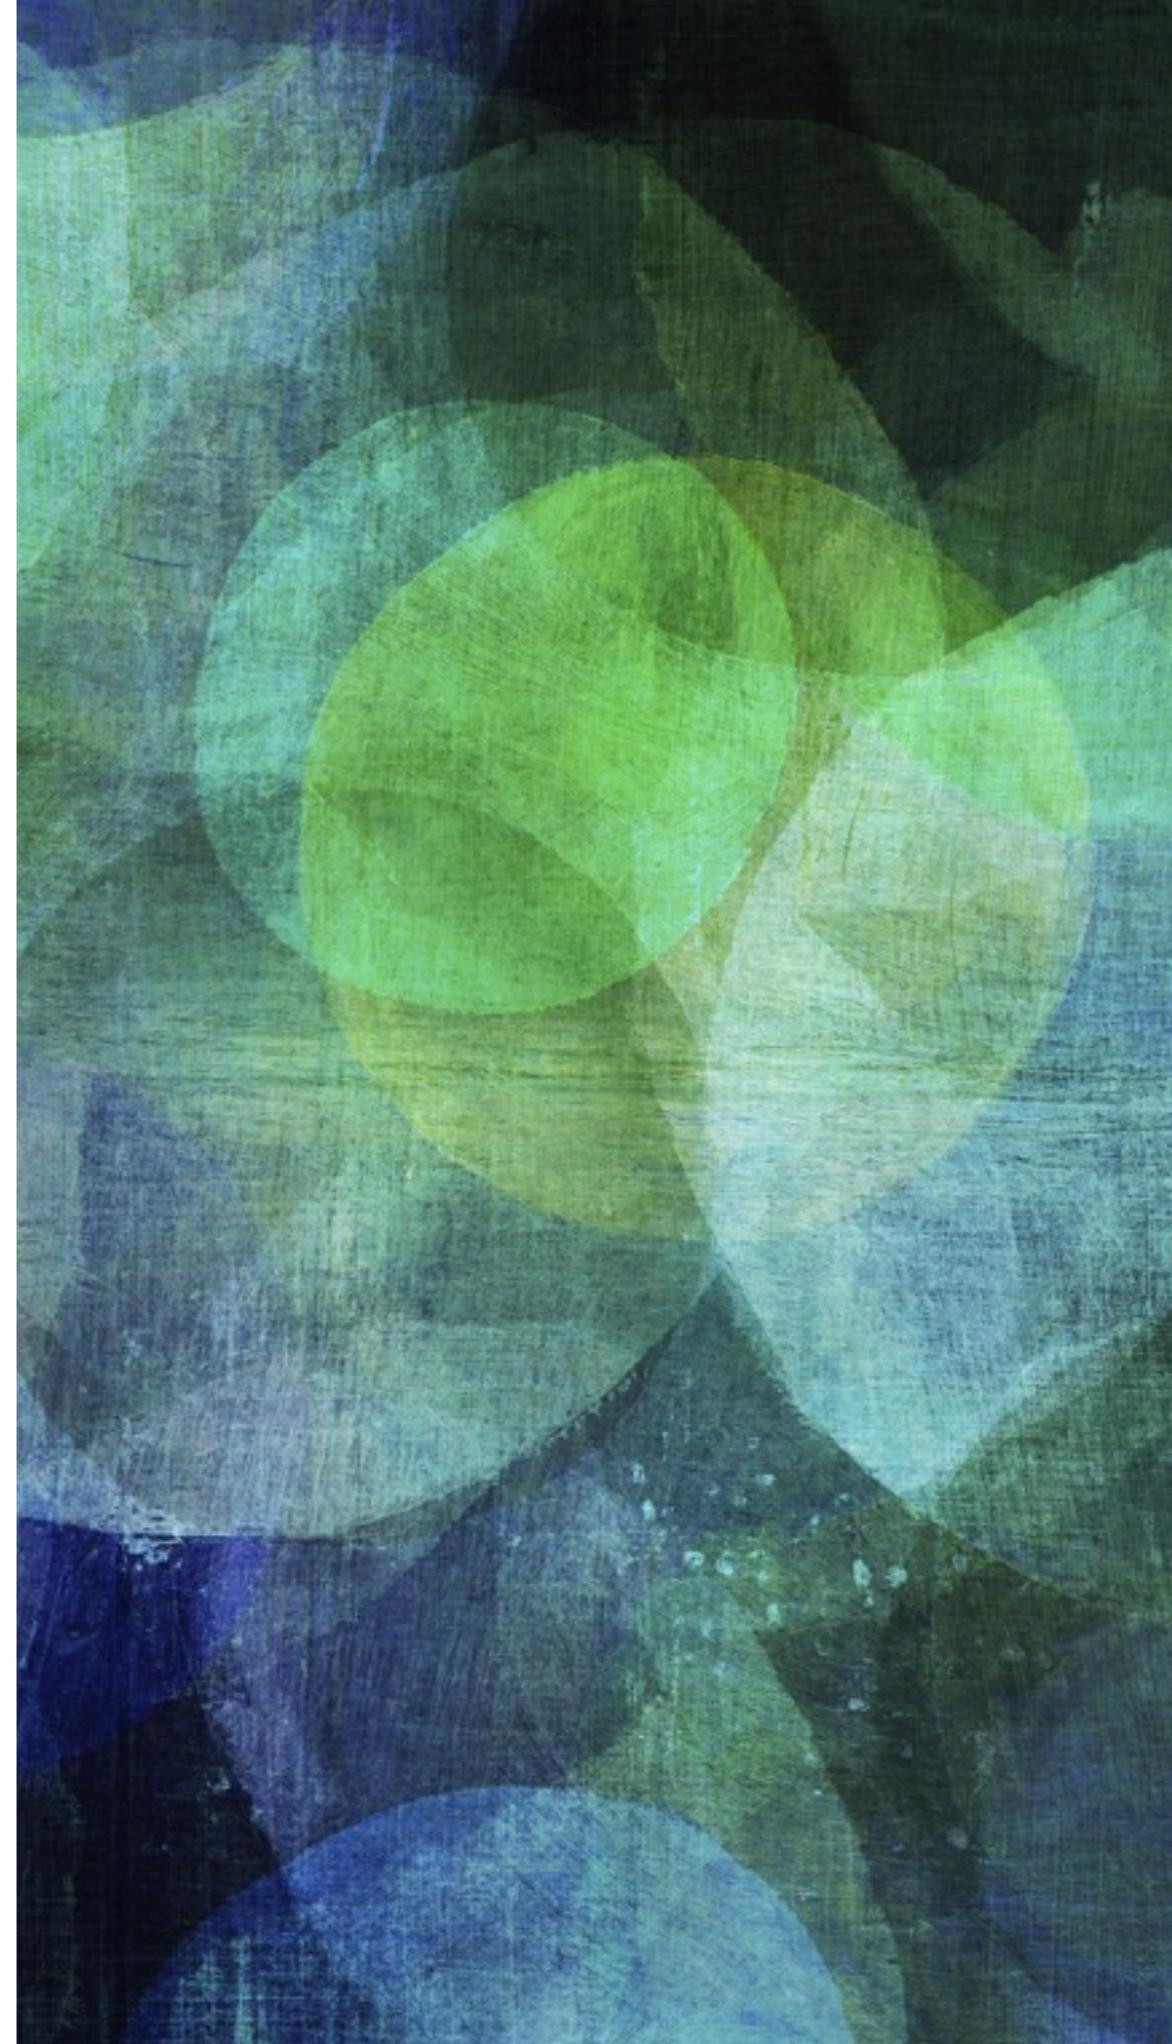

WHAT IS A CREATIVE RESPONSE PROJECT?

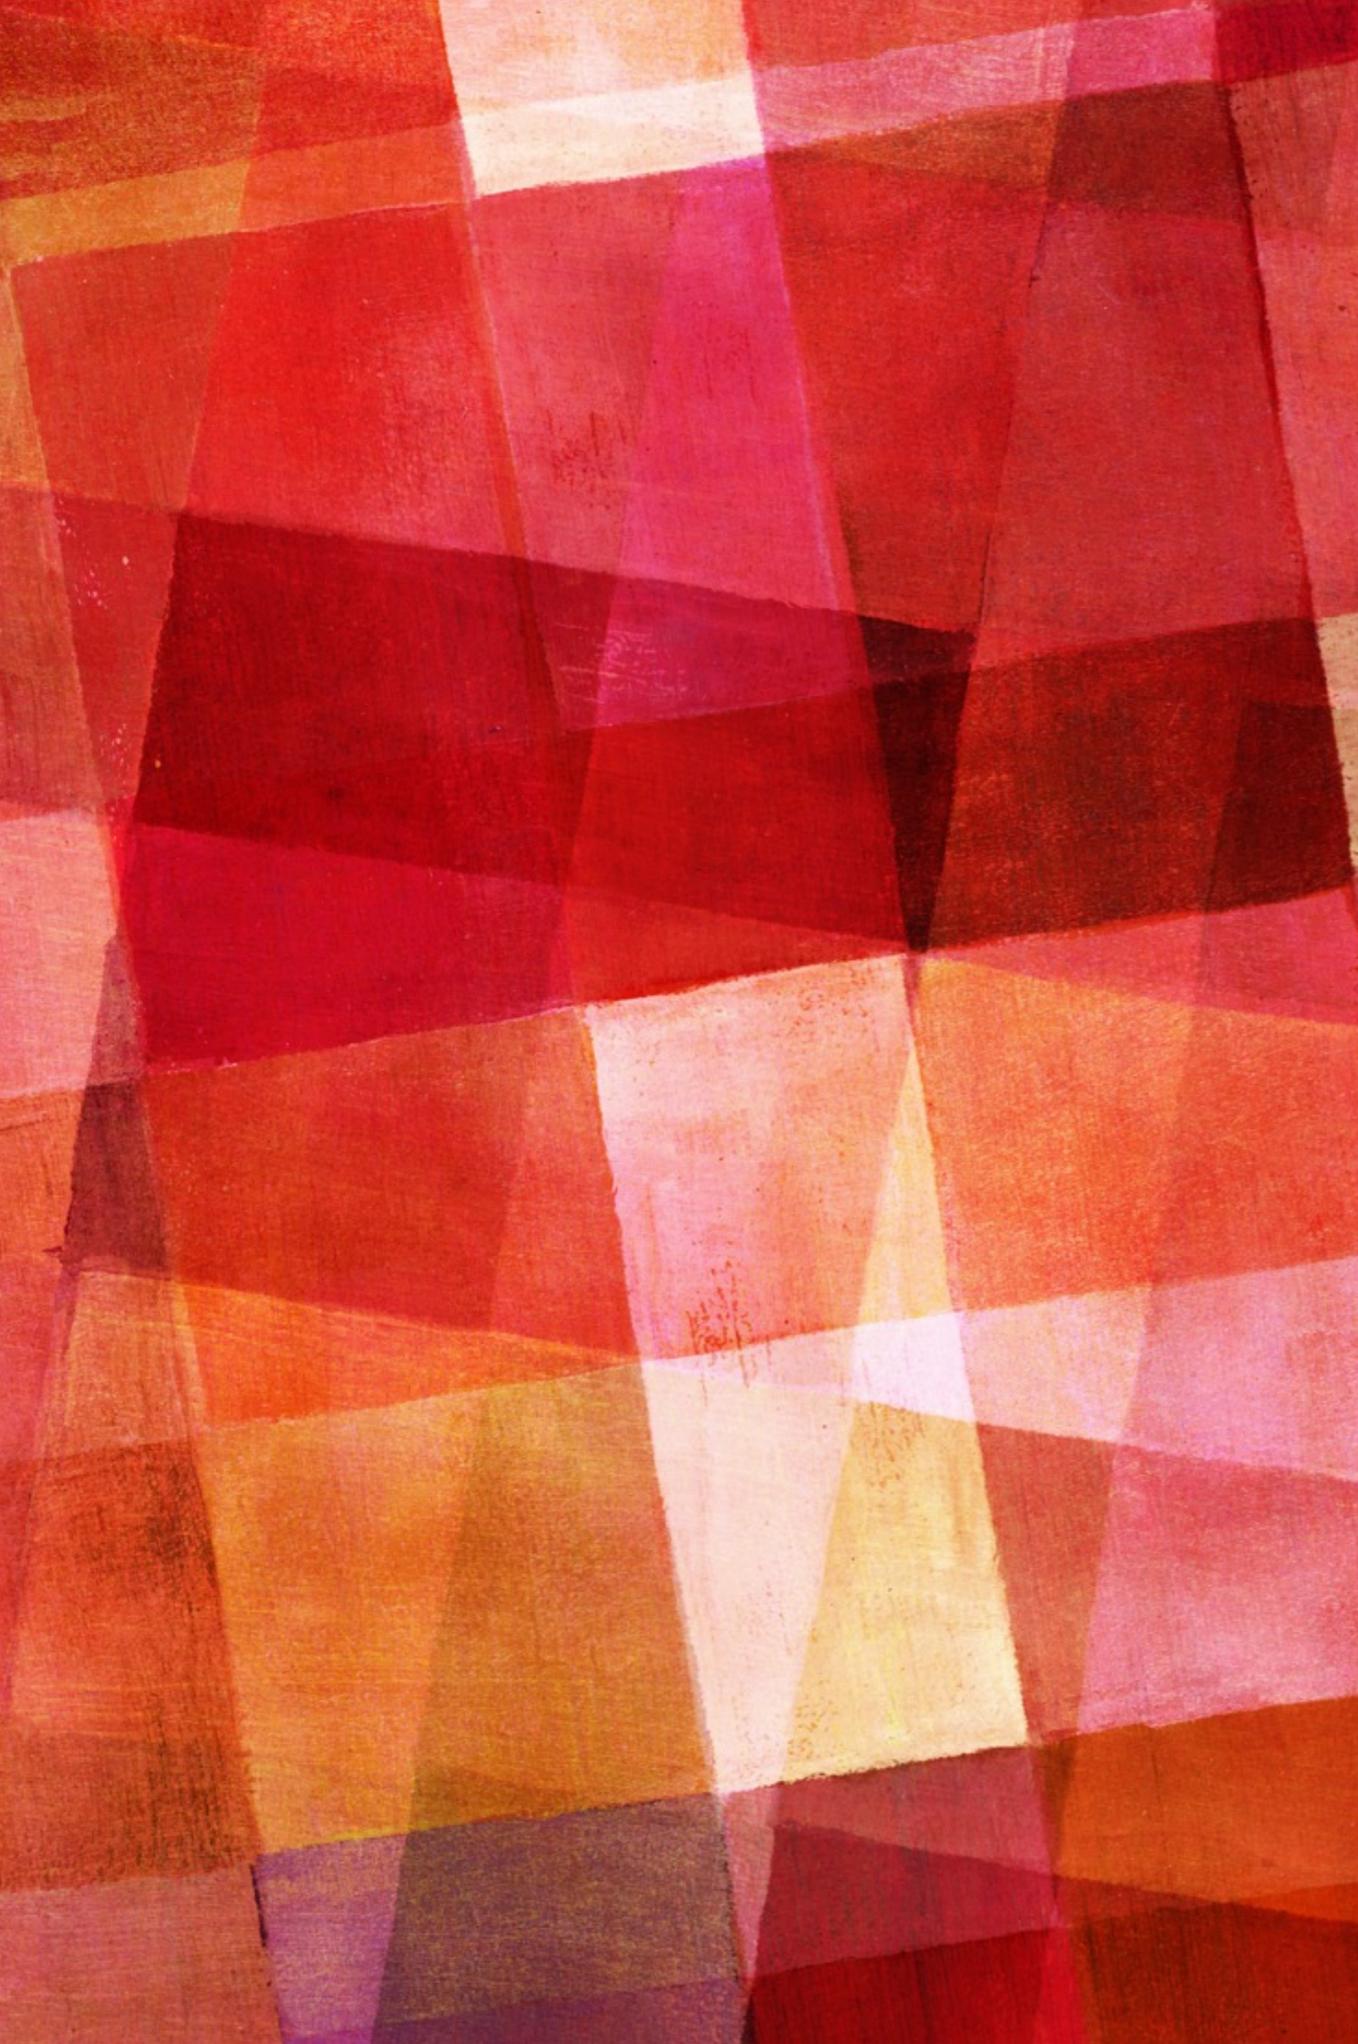

.....

- A Creative Response Project is exactly what it sounds like! You will be responding creatively to one part of content we have covered in AHL!

MEDIUMS:

- Collection of poems
- Artwork (paintings, drawings)
- Short Story
- Script and/or Screenplay
- Short film/animation
- Music Video
- Song/Musical Composition
- Sculpture/Model
- Board game
- Diary or journal entries of historical figure or character
- Something else!

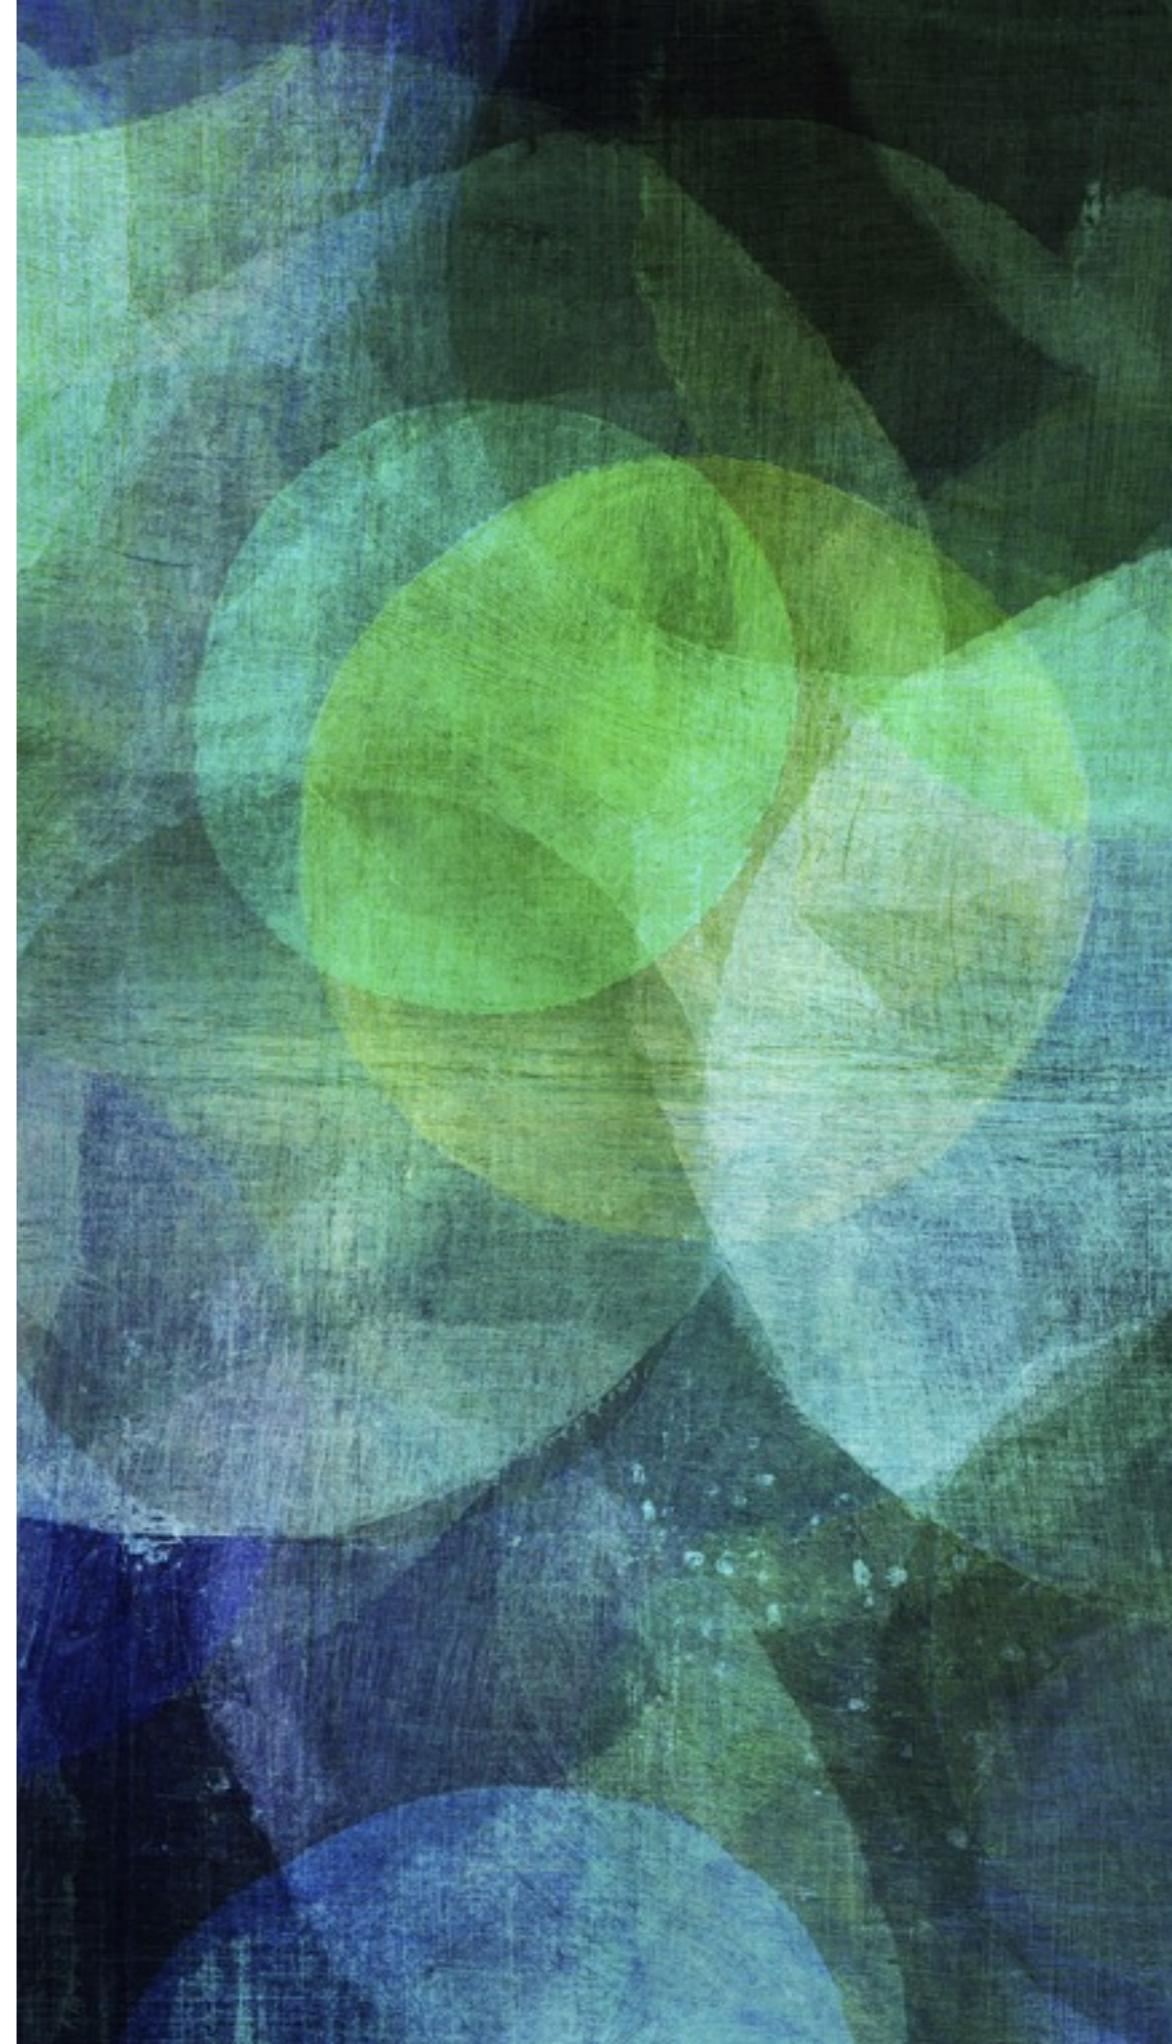

REQUIREMENTS

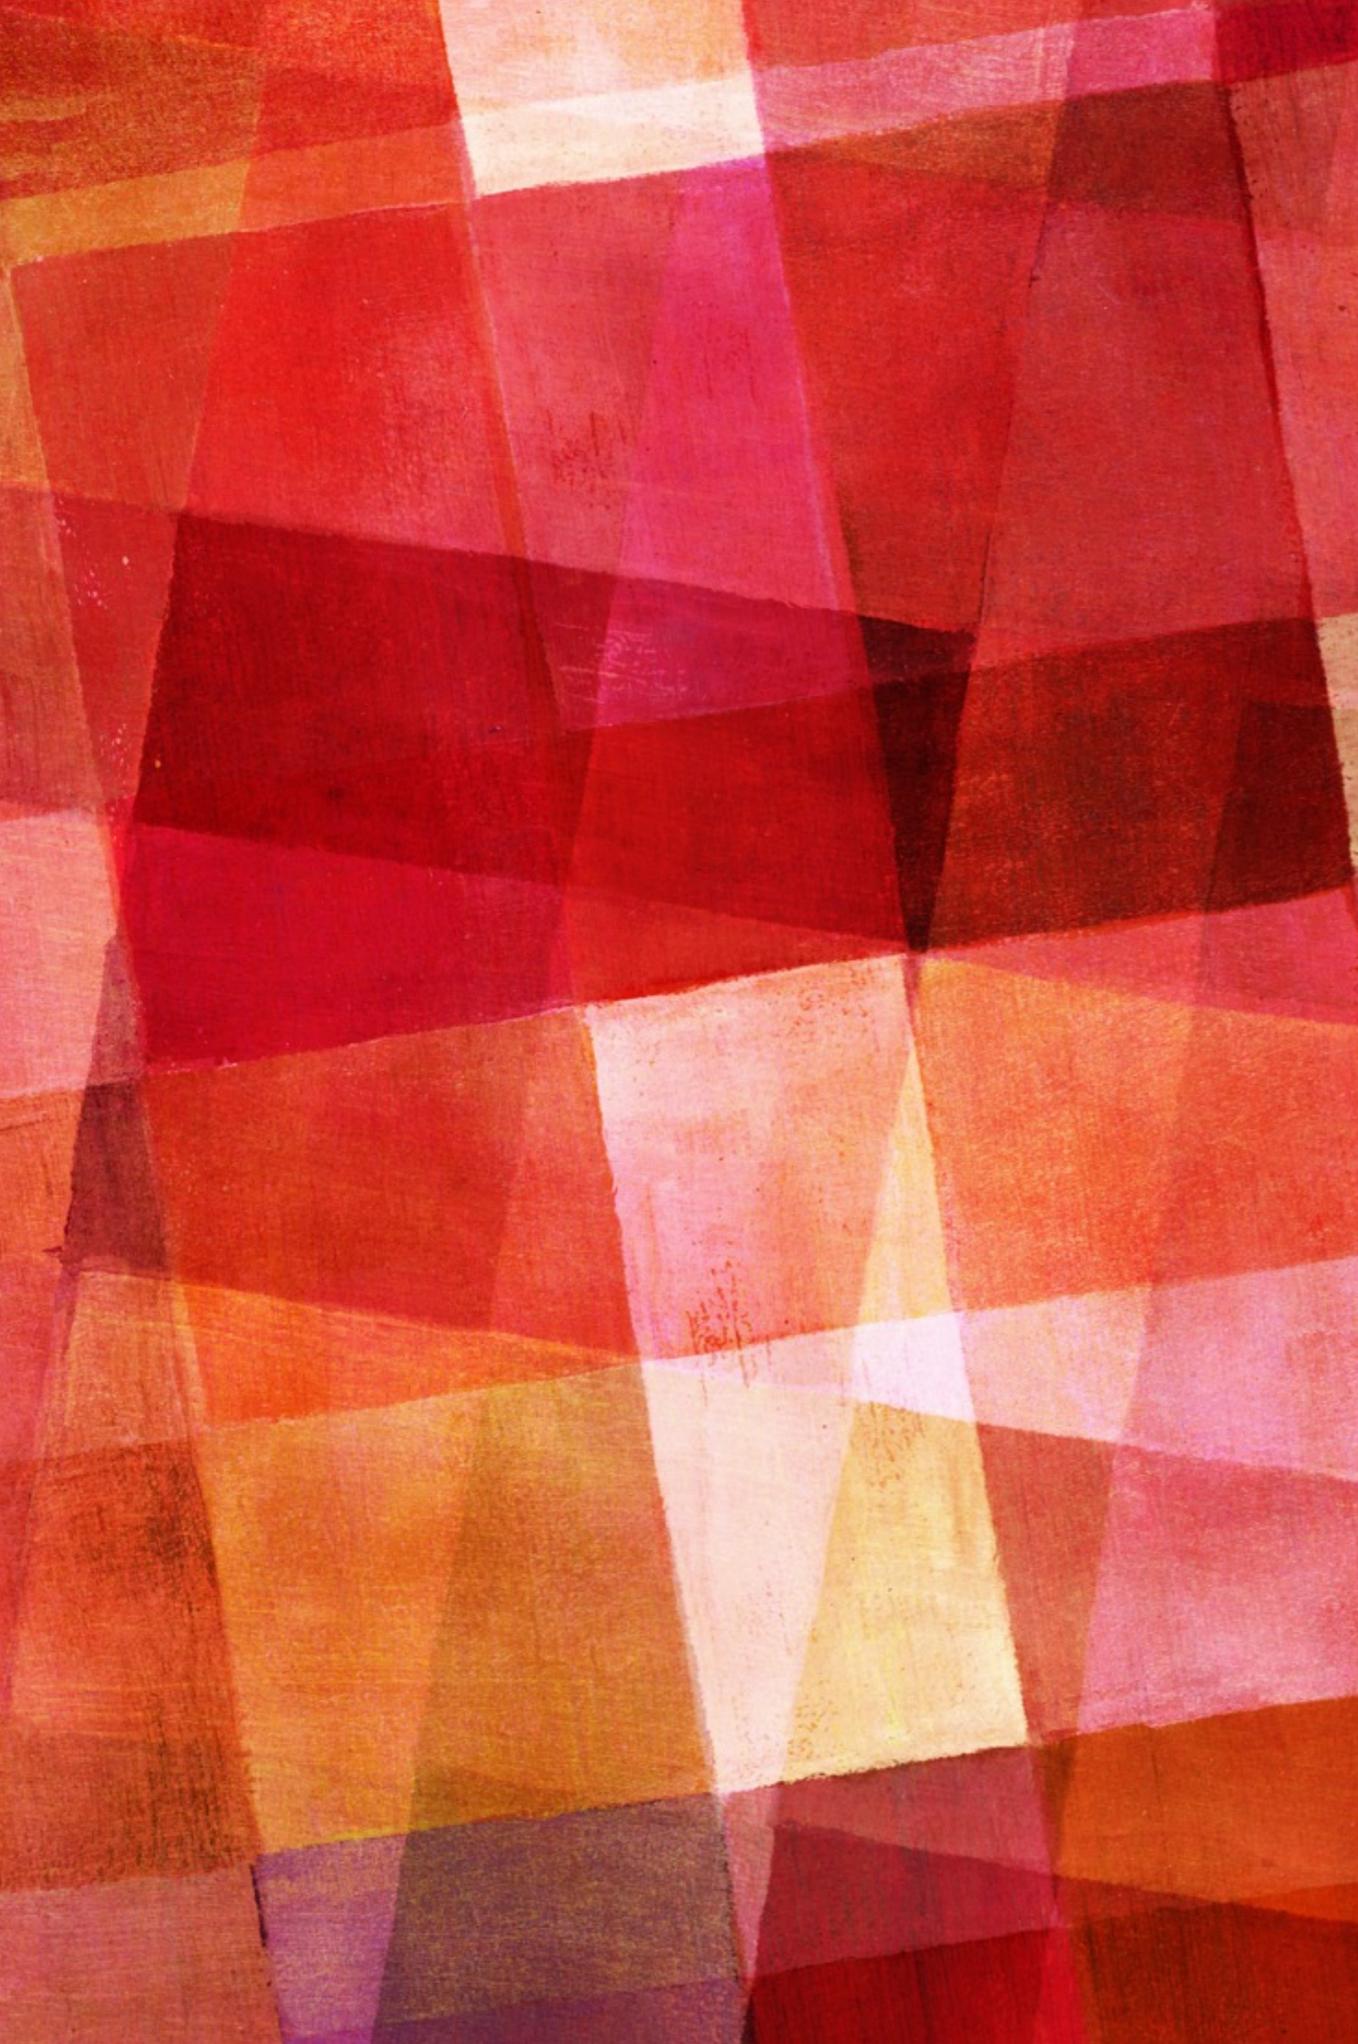

.....

- The project must be themed in aviation.
- The content of the project must demonstrate new learning. In other words, the project is not merely a regurgitation of content covered in class.
- Choose an aspect of this class that interested you... something you wish you could've learned more about.
- Your project must require some element of research beyond what was covered in class.

POSSIBLE TOPICS:

-
- A specific aviation event or milestone
 - A specific aviator and/or historical figure who influence the field/industry
 - A specific aircraft (i.e. The Hindenburg, Red Baron's triplane, Apollo 11)

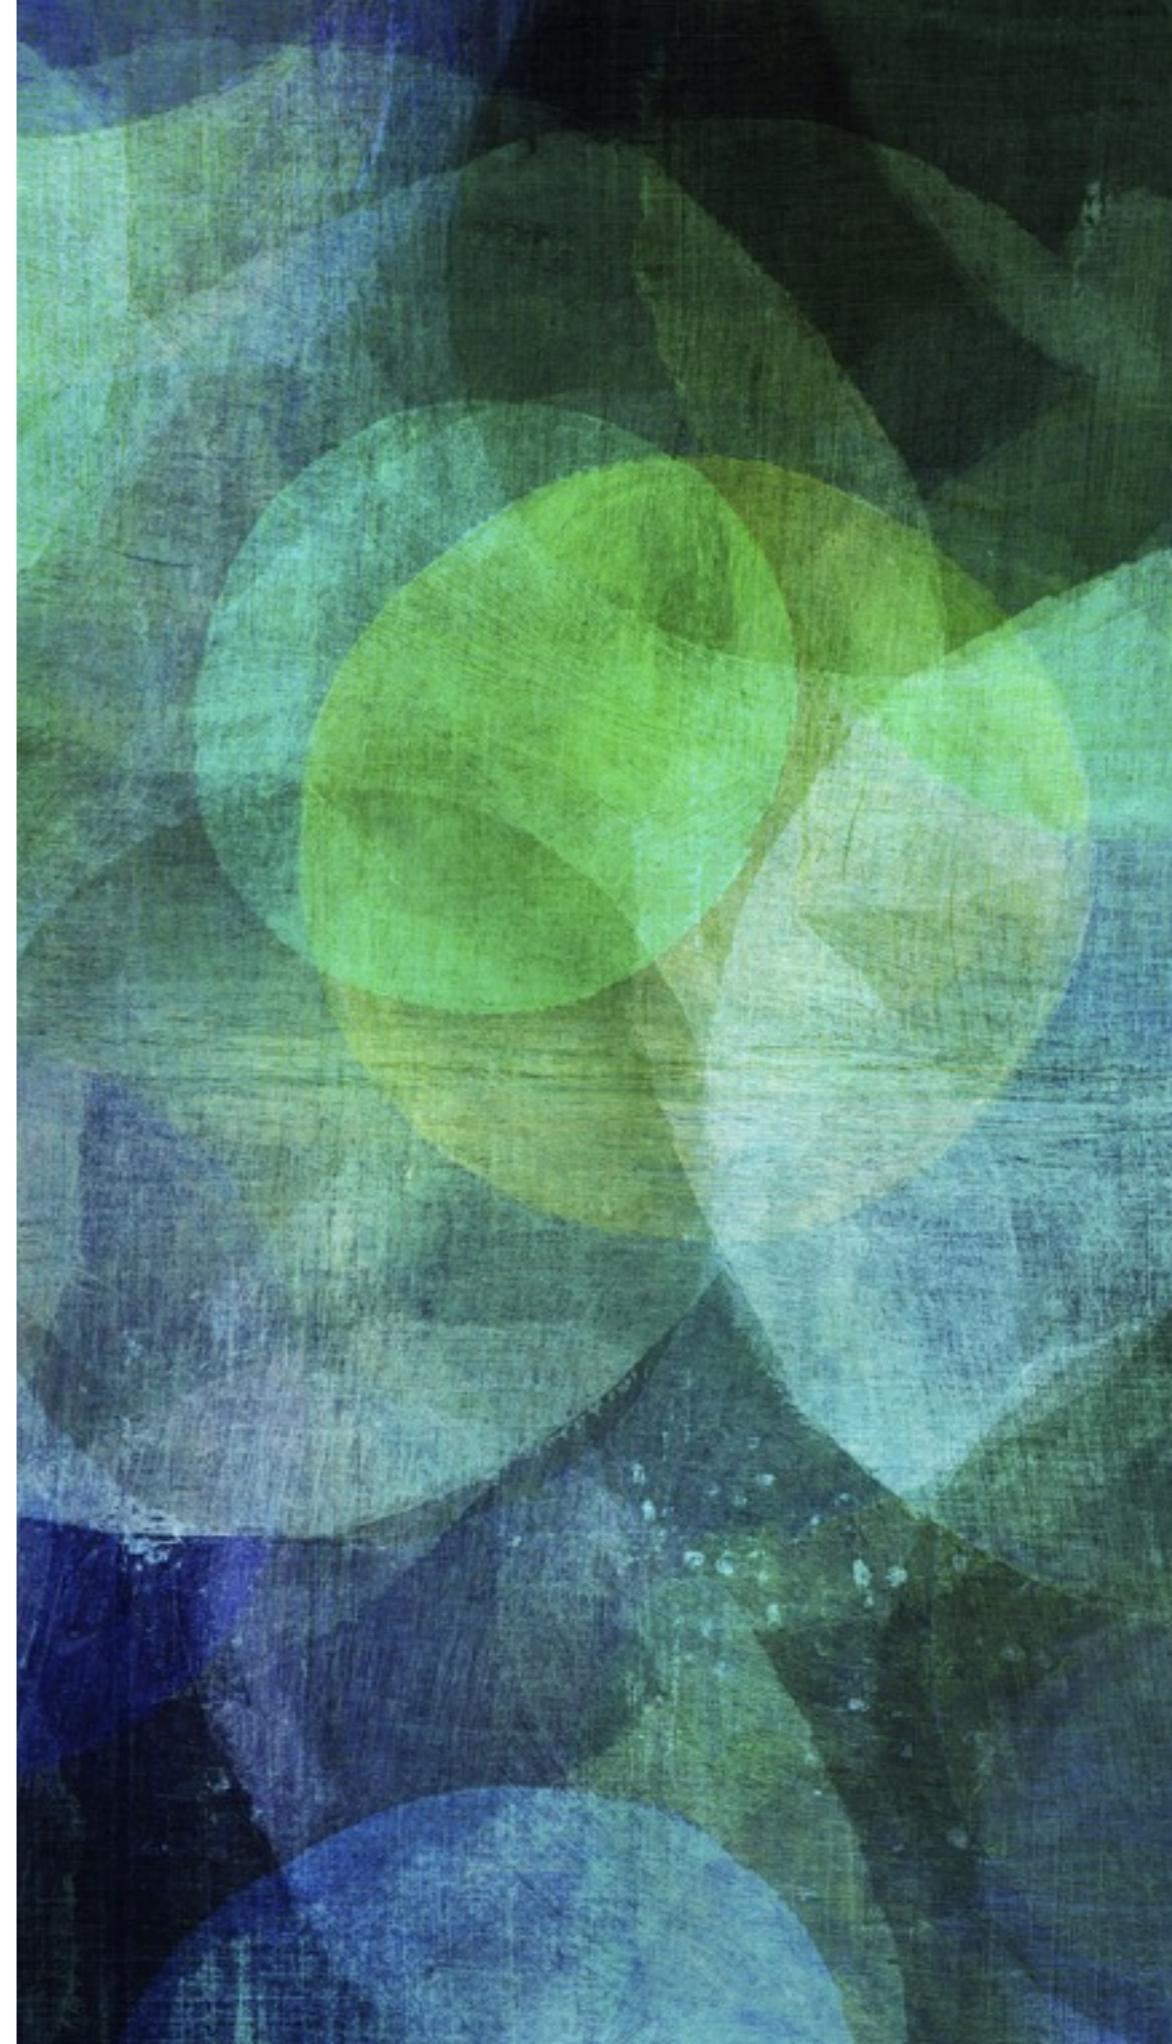

ARTIST'S STATEMENT:

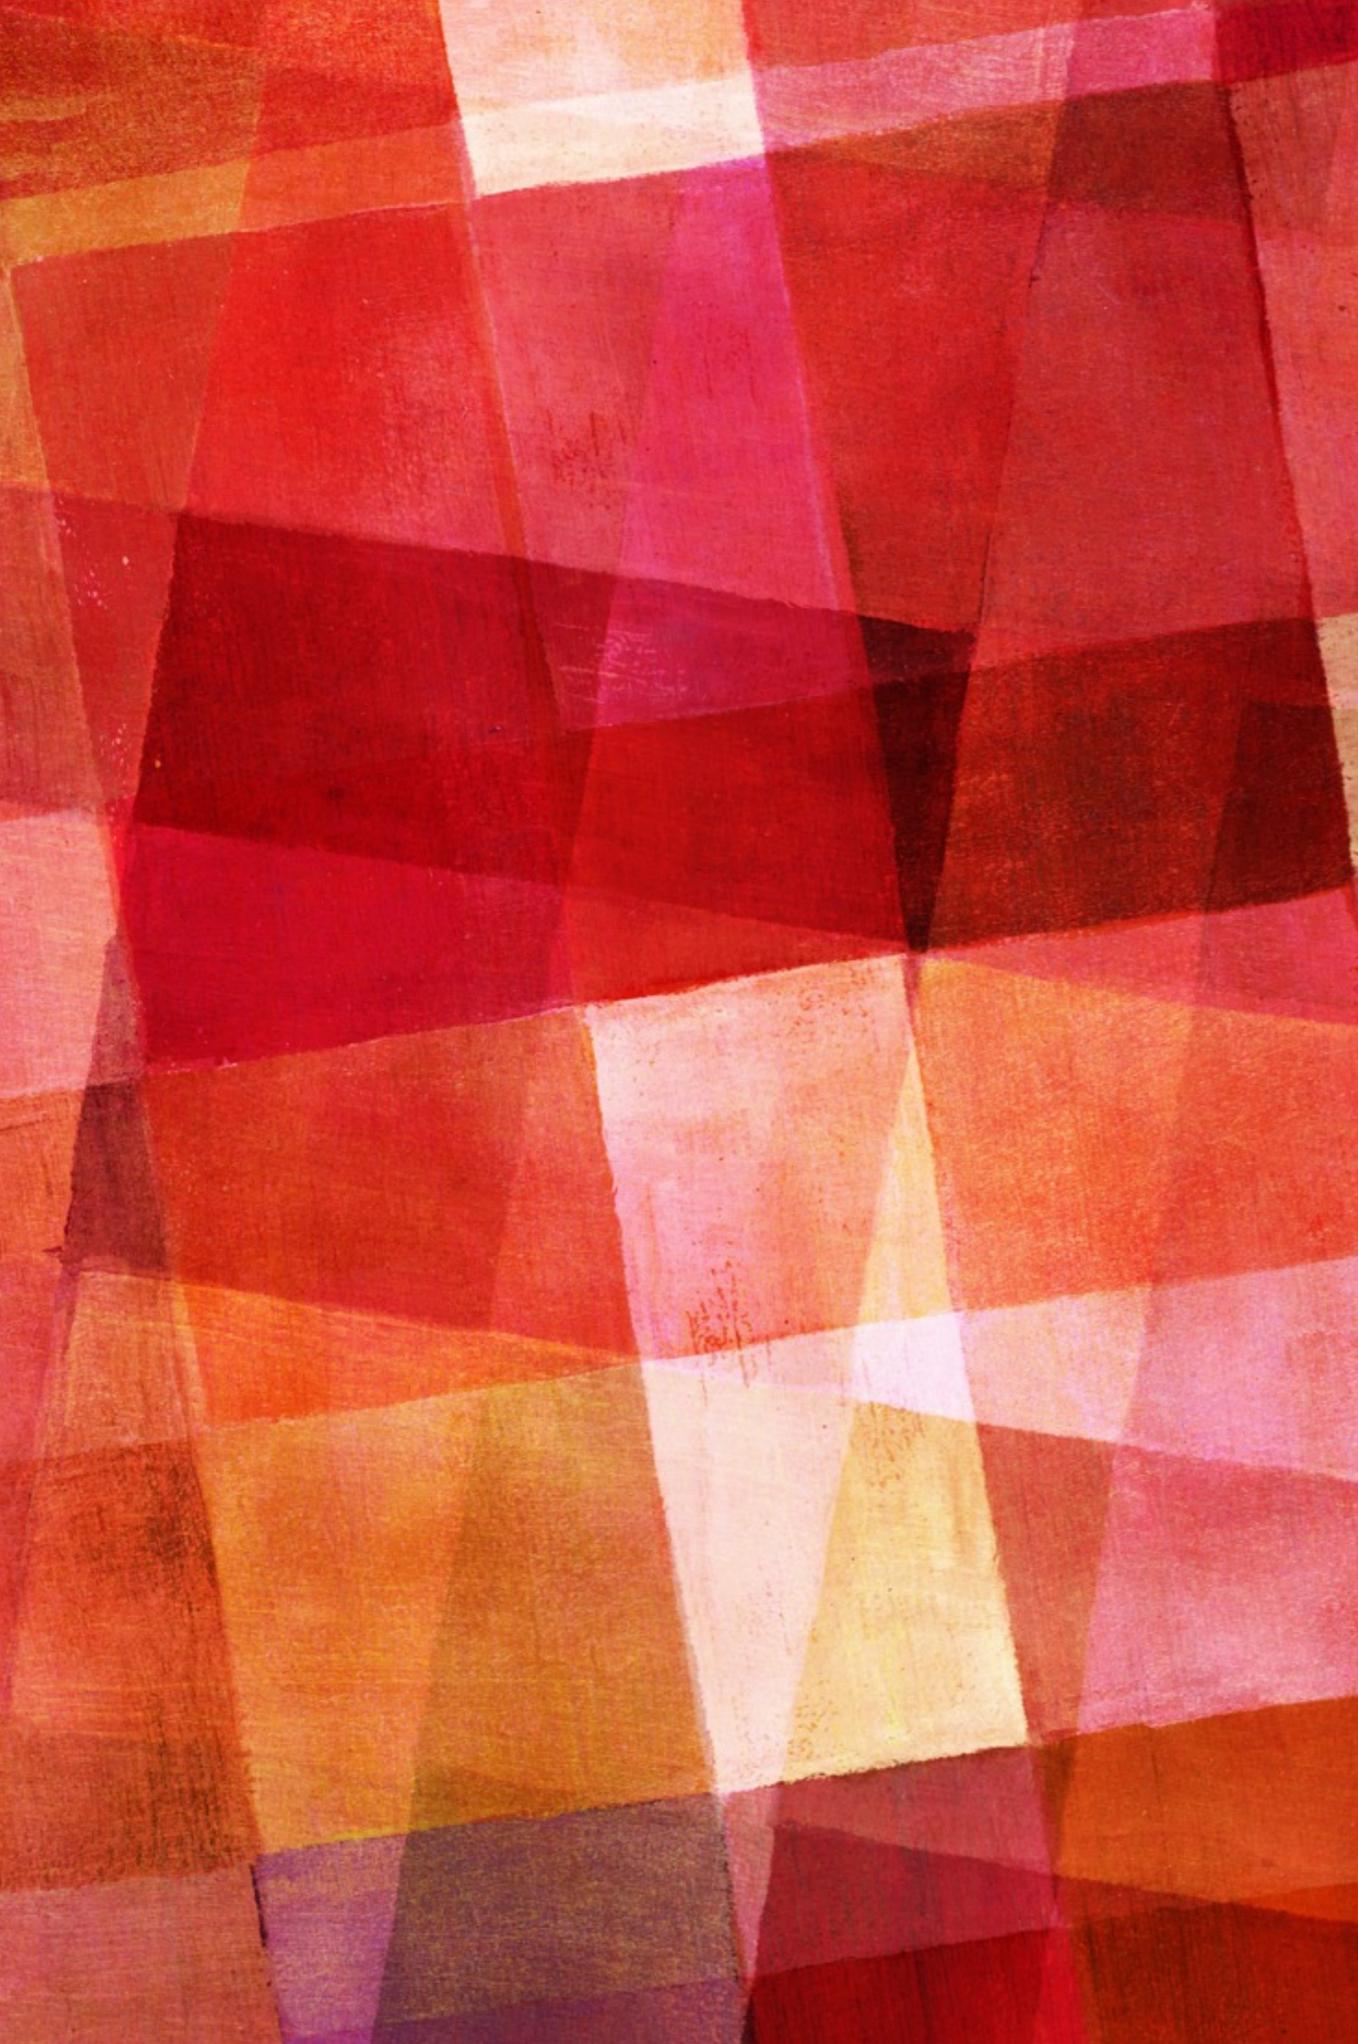

.....

- Along with your project, you will be writing an Artist's Statement.
- In this statement, you will explain how and why you created the project you did.
- You will also submit a Sources Consulted page. This document will outline where you found the information that helped you create your project.

WHAT WE'RE COVERING:

- Aviation Takes Flight: ballooning, legends of flight, early ideas and discoveries, da Vinci, Montgolfier Brothers
- Aviation Milestones: The Wright Brothers, Charles Lindbergh, Amelia Earhart, Chuck Yeager, Space exploration
- Aviation in Warfare: World War I, Red Baron, dogfights, World War II, Luftwaffe, Battle of Britain
- Aviation Disasters: Hindenburg, Miracle in the Andes, 9/11, Miracle on the Hudson

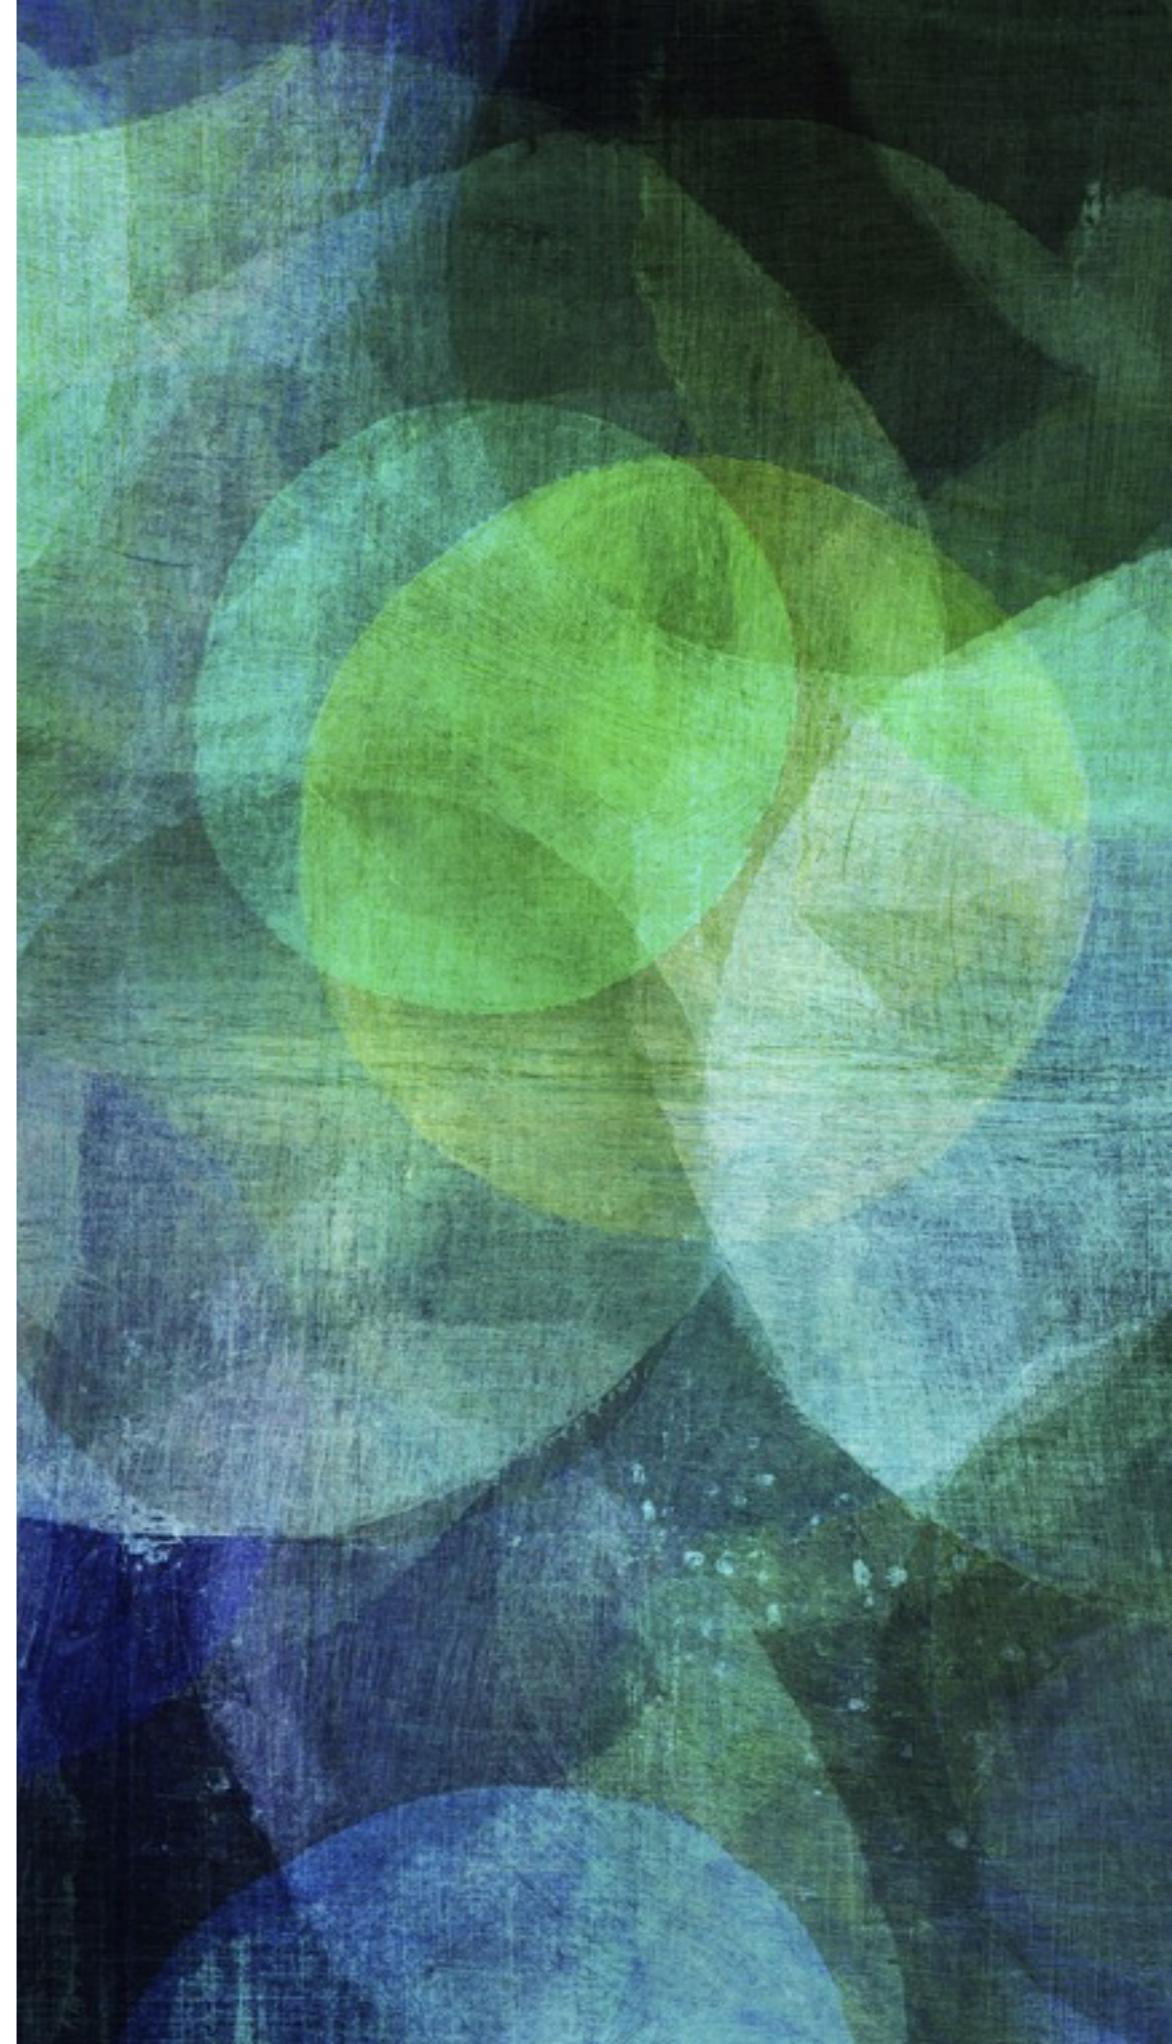

DUE DATES

.....

- There are no specific due dates to be mindful of yet! I will keep you posted.
- Starting in late December, we will work on the project in steps! The first line of business will be submitting a Project Proposal to me.
- The project will count as a final exam grade (along with a content test taken on exam day)

WHY ARE WE TALKING ABOUT THIS NOW?

- Start thinking about what you might like to do!!! (topic and project medium)
- Let me know if you have ideas you are already thinking about. I can let you know if you're on the right track:)
- This is supposed to be a FUN project! Make the most of it and plan accordingly.
