

WWII TEST - VanZegeren

Test Sections:

- 1: WWII Chronology (sequence of events)
- 2: Multiple Choice
- 3: Battle Matching Section (European & Pacific)
- 4: Short Answer
- 5: Map of Europe

TIPS:

- review the order of events across all 3 packets. Focus on the order of battles & Hitler's Path to War. You can find the "*I Have.../Who Has...*" cards on my website (check Week in Preview!) Print out your own set & practice putting them in order:)
- click through powerpoints available on my website
- make flashcards with the "Takeaway" box for each of the battles (BOTH the European battles & the Pacific battles)
- study the map; think about which locations we've talked about; what countries did Hitler takeover? what geographic areas/bodies of water are mentioned in the cards or in the battles?
- handwrite out your notes on a separate sheet of paper; the act of rewriting the material can help you learn it better; if you learn by listening, read your notes out loud as you rewrite them.
